

Presentation

Markdown presentation with Marpit!

```
$ some commands
```

Syntax

You can write slides in Markdown

Each slide should be separated with a ---

Lists

1. gfg
 2. gd^{fg}
 3. gd^{fg}f^d
- gfg
 - fgd
 - gd^{fg}

Formatted text

As Kanye West said:

“

We're living the future so
the present is our past.

”

This is normal text

This is **bold text**

This is inline code

This is a link

Code blocks

An explanation for the code below:

```
import os  
  
print(os.getcwd())
```

```
import shutil  
  
columns, rows = shutil.get_terminal_size()
```

A table

aaaaa	e	D
ee	bbb	GDFG
ff	d	cccc
